Free 4X4 Patch Designs

Please enjoy these patch designs created by me using Embrilliance software! I used the brand new **Merrow-ly Interactives** program to create these patches that are sized to fit in the 4x4 hoop - that is why they are "catty whompus" so they can be as big as possible :-)

The folks at Embrilliance have been working on this new program, that is an add-on OR stand alone program for the Embrilliance platform. At this time, it is not available for sale. Expected release date is July 22, 2021 but it could be earlier! If you are coming to the show, be sure to stop by the Embrilliance booth to see this wicked cool new interactive module in action AND of course, for show specials. For those of you who are attending virtually - you are NOT left out of the show specials! Be sure to check out the virtual goodie bag for the Embrilliance Virtual Applique Getaway Coupon!

There are THREE versions of this patch.
